

## **DOMESTIC FLIGHT TO DHARAVANDHOO & SPEEDBOAT RIDE**

Our preferred Domestic Carrier is FlyMe which operates regular daily flights from Male' International Airport to Dharavandhoo in Baa Atoll.

FlyMe now operates 2 ATR 72-500 aircrafts in its fleet which may accommodate up to 68 passengers in comfortable, air-conditioned aircrafts with sufficient legroom.

As these aircrafts are wheel-based and landing on a local island, night transfers are possible as well.

We kindly request all guests arriving at the International Airport, to proceed immediately to the Check-in counters of FlyMe once you are in possession of your luggage and have passed Customs. The counters are located in the Domestic Terminal of the airport which is an approximate 2-3 minutes walk from the arrival hall.

The Resort's Airport Representative will help you in finding the way if you require assistance.

You will receive your boarding pass once you checked in at the Domestic Terminal, please hold your passports ready for verification. Your luggage will then be checked in; please stay at the terminal until your flight is ready for boarding. Once boarding starts, it will be announced via speakers and you may proceed to the respective boarding gate.

Enjoy the 20 minutes flight to Baa Atoll! Once you arrived at Dharavandhoo Airport, you will be transferred by FlyMe courtesy bus to the harbor area where our speedboat awaits you. You are now only 15 minutes away from your holiday destination! Enjoy the ride through the Atoll while approaching Reethi Beach Resort!

Please note, that the luggage restrictions with FlyMe are 25kg for checked-in luggage and 5kg for carry-on luggage. Luggage exceeding standard sizes (surfboards, kiteboards, etc.) may not be transferred on the same day and is subject to space availability in the aircrafts' luggage compartment.

Due to delays of international flights, severe weather conditions and arrangements of combined flights, the waiting time may vary. Please contact the Ground Staff of FlyMe at the Domestic Terminal for immediate updates on your flight status.

Please note that neither Reethi Beach nor FlyMe can be held responsible for the delay or cancellation of flights which occur due to severe weather conditions. Any additional costs involved in alternate accommodation due to force majeure are to be borne by the guests.

Your return to Male will be arranged by FlyMe according to the departure of your international flight. For your exact transfer timing, please refer to the reception one day prior to your departure.

## **SEA PLANE TRANSFERS**

The transfer to Reethi Beach is organized by seaplanes of Manta Air (MA).

Arrival transfer is guaranteed for passengers reporting to Manta Air counters latest by 15:30 hrs. Departure transfer is guaranteed for international flights departing Male' airport after 09:00 hrs.

In case you are reporting to the counter later than 15:30 hrs on your arrival or if your international flight departs before 09:00 hrs, we will not be able to arrange a same day transfer. In this case you will need to organize an overnight stay somewhere close to the airport. We are happy to help, if you need any assistance in finding an accommodation.

We kindly request all guests arriving at the International Airport, to proceed immediately to the Check-In counter of Manta Air once you are in possession of your luggage and have passed Customs. The counters are located opposite of the arrival gates and clearly visible in the red & white color logo.

Your tickets are ready for pick-up at the counter of Manta Air; Please mention your name and destination in order to obtain them. Your luggage will then be checked in and you will be transferred by Manta Air courtesy bus to the seaplane terminal of Manta Air which is a few minutes away on the other side of the airport island.

Please note that the luggage restrictions for flights by seaplane are 20kg for checked-in luggage and 5kg for carry-on luggage regardless of allowances granted by the international airline. Excess luggage has to be paid directly to Manta Air at the time of check-in. Luggage exceeding standard sizes (surfboards, kiteboards, etc.) may not be transferred on the same day to the island and is subject to space & payload availability.

As the seaplanes do not have overhead-compartments, trolleys and bigger hand luggage will have to be checked-in as regular luggage and stored in the luggage compartment of the aircraft.

The operation of seaplane flights is rather complex and depends on weight restrictions. Due to the increasing luggage brought by guests, it may rarely occur that your luggage won't be transferred on the same flight as you are travelling on. In such cases, Manta Air will inform you before offloading your suitcase. We strongly recommend to take urgently needed items (medicines etc) along on your carry-on luggage if such a situation occurs.

Due to delays of international flights, severe weather conditions and arrangements of combined flights of several resorts, the waiting time may vary. Please contact the Guest Relation Team of Manta Air for immediate updates on your flight status.

Please note that neither Reethi Beach nor Manta Air can be held responsible for the delay or cancellation of flights which occur due to severe weather conditions. Any additional costs involved in alternate accommodation due to force majeure are to be borne by the guests.

While waiting for your flight, enjoy the unique operation of seaplanes of which Maldives is hosting the biggest base worldwide!

Your return to Male will be arranged by Manta Air according to the departure of your international flight. For your exact transfer timing, please refer to reception one day prior to your departure.

Please note that if your international flight is scheduled at night, Manta Air tries to arrange your transfer to Male as late as possible, depending on the daily schedule and weather conditions.

Please find below the Terms of the Contract with Manta Air.
